

Good Morning Paula,

I can't say enough about the presentation Aaron provided for our Boy Scout Troop. Aaron was very professional and spent a considerable amount of time tailoring his message to our group. For us, it was important for the boys to see how accomplishing the Eagle Scout rank is a stepping stone to future endeavors.

Although our message was pointed mostly towards the scouts, it has been amazing how many conversations I have had, and are still having with adults that attended. You don't get an opportunity very often to listen to one of a handful of people that have accomplished what Aaron has been able to complete. I will even take it a bit further. We have two fathers in our troop with over 20 years of experience each as Navy Seals, and they were impressed with the Aaron's presentation.

I could go into detail, but his message was a very good blend of speaking, video and even actual equipment that was with him on the trip. Aaron is very knowledgeable about the electronics needed for his presentation, and was able to use his equipment with our existing sound system to help everyone enjoy the story.

I would very much recommend Aaron for your meeting.

Please let me know if you have any other questions.
